

How to Search for Linked Classes

Valencia College offers courses that must be taken together in the same term/semester. These courses are linked together as corequisites in registration and require you to be registered in each course that is linked to the other(s). An example of courses that may be linked together are EMS 1119 Fundamentals of Emergency Medical Technology, EMS 1119L Fundamentals of Emergency Medical Technology Practice, and EMS 1431L Emergency Medical Technician Clinical Practicum.

You can search for courses that are linked together as corequisites via the **Class Schedule Search**:
