

How to use FOCUS 2 Career

The layout of FOCUS 2 is designed to walk you through the first steps of your career planning process. We recommend that you start at the **Career Planning Foundations** section – *My Career Planning Involvement*, *My Academic Strengths*, and *Am I Career Ready?*

Continue with the **Self-Assessment** section and complete the *Work Interest*, *Values*, *Personality*, and *Skills Assessments*. Remember to save occupations and areas of study (majors) that you're interested in, or no information will appear in your portfolio.

Choosing a program of study and career path is your responsibility and no assessment or career advisor can make these decisions for you.

The Career Center can help you evaluate your options. Schedule a [career assessment appointment](#) to discuss your results with a career advisor.
