To address this, TSIC invites current TSIC institutions to participate in Take Stock in College with the following activities: 1) Graduating seniors will complete an Online Senior Workshop 2) Graduating seniors will complete a post-secondary success plan. The workshop and success plan have been developed by TSIC.</p>	<p>\$3,500</p>	<p>No</p>

This program identifies Orange County students who show academic promise but are from low-income families and typically first generation in college. The program provides support through four years of high school, including 1:1 mentoring, to increase high school graduation rates and successful transfer into college. Funding will provide scholarships for HSP students throughout Orange County.</p>	<p>\$25,000</p>	<p>No</p>

The program will explore racial and gender bias including racism within the suffrage movement. The goal is a broader understanding of voting rights, and the importance of participating in the election process. As 2020 marks the centennial for ratification of the 19th Amendment as well as the Voting Day Massacre in Ocoee, Florida, PJI and community partners will provide educational forums examining the connection between universal womens suffrage and with the increased spector of violence and terror, voter suppression and attempted control of the democratic process. These discussions will provide a timely review about the value and importance of voting.</p>	<p>\$5,000</p>	<p>Yes</p>

The current internship plan has been in place since Fall of 2016, but no longer meets the distinct needs of the fast growing Biotechnology program. The over-arching goal of this project is to better prepare students to enter the workforce as laboratory technicians by providing meaningful internship experiences and development of essential workforce skills. To this end, BIO-SPARK has four core objectives: 1) Improve Biotechnology Internship Opportunities for Students: BIO-SPARK will grow industry partnerships, increasing the number of overall partners from eight to 12. BIO-SPARK will also expand the roles of current industry partners; 2) Amplify Biotechnology Essential Skills Training for Students: The BIO-SPARK project team will create two new modules for the students to complete as part of their internship requirements. The developed curriculum will be based on industry needs. The first module will focus on essential workforce skills (such as professionalism, communication) and the second set of modules will focus on Biotechnology specific education not currently covered; 3) Enhance In-house Experience for Valencia Students through creation of an additional course, Internship Resources a centralized location where they can find information regarding internship requirements, internship sites, and the process for enrollment 4) Expand the Biotechnology Community through an annual Bio-symposium and additional community outreach.</p>	<p>\$250,217</p>	<p>No</p>

Events include a 5-day career exploration program, Career EDventures, along with college visits and workshops on topics such as Diversity, Conflict Resolution, Teamwork, and Resume Writing/Interviewing for students across all grades. Additionally, students can participate in a multi-week SAT/ACT test preparation course. Students who complete all program requirements receive a two-year scholarship, with many graduates opting to attend Valencia College. Funding will support subsistence for workshops and worksite visits, transportation for college visits and career exploration worksites, facilitators for students and mentor workshops, general materials and supplies, printing, and a limited amount for student crisis care.</p>	<p>\$23,000</p>	<p>No</p>
